# INSTALLATION INSTRUCTIONS

## **ICU Sink System** Models: 9118.111, 9118.100 & 9118.150

Introduction: Thank you for selecting our products...products which have been the benchmarks of fine quality for years. To help insure that the installation process will proceed smoothly, please read these instructions carefully before you begin. Also, review the recommended tools and materials list; carefully unpack and examine your new plumbing fixture.

#### A CAUTION: PRODUCT IS FRAGILE. TO AVOID DAMAGE AND POSSIBLE INJURY HANDLE WITH CARE!

NOTE: Pictures may not exactly define contour of china and components.

Style That Works Better

#### **1** ROUGH-IN SUPPLIES AND WASTE OUTLET

1. Rough-in 3/8" supplies and waste outlet connections.

NOTE: For ease of installation and accessibility, it is recommended that straight stops with flex supply tubes be used. As an alternative, if rigid supply risers are used, it is suggested to use angle stops in place of the straight stops.

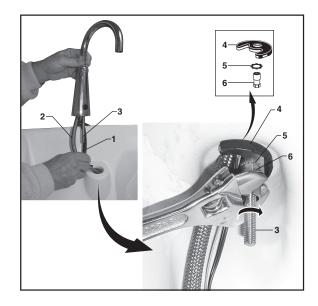

## 2 INSTALL FAUCET

NOTE: For more detailed information, see the installation instructions supplied with the ICU FAUCET. #(M965119)

1. Insert WIRES (1), FLEX HOSE (2) and SPOUT SHANK (3) through center hole of mounting surface.

2. Assemble "C" WASHER (4), STAR WASHER (5) and LOCKNUT (6) onto threads of SPOUT SHANK (3) from underside of mounting surface.

3. Align FAUCET and tighten LOCKNUT (6).

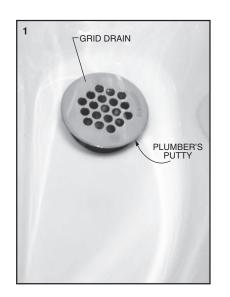

## **3** INSTALL GRID DRAIN AND OFFSET TAILPIECE

1. Apply plumber's putty to the underside of flange. Install GRID DRAIN into drain outlet.

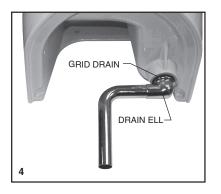

2. From the underside of SINK install RUBBER GASKET (flat side up) and FRICTION GASKET onto GRID DRAIN threads. Apply sealent to threads of GRID DRAIN.

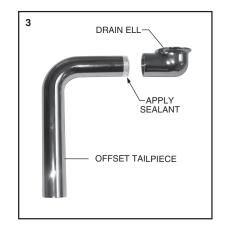

3. Apply sealent to threads of OFFSET TAILPIECE and thread into DRAIN ELL.

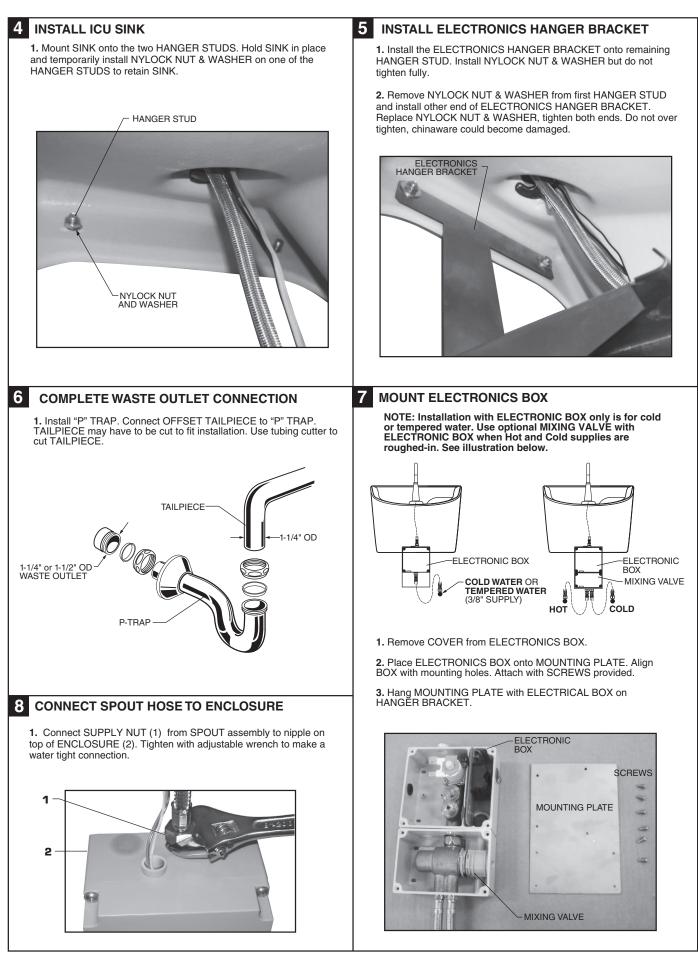

4. Thread DRAIN ELL onto GRID DRAIN, tighten and align as shown.

#### 9 CONNECT WATER SUPPLY TO ENCLOSURE AND TO COLD OR TEMPERED WALL SUPPLY

1. Insert FIBER WASHER (4) into SUPPLY NUT (1) on ENCLOSURE (2).

2. Connect SUPPLY NUT (1) on ENCLOSURE (2) to FLEXIBLE SUPPLY HOSE (3). Tighten to make a water tight connection. Use two wrenches to tighten if necessary.

3. Connect FLEXIBLE SUPPLY (3) directly to wall supply. Connection on FLEXIBLE SUPPLY (3) is 3/8" compression. Use adjustable wrench to tighten connection. Do not over tighten.

Note: FLEXIBLE SUPPLY (3) measures 20" from the bottom of the ENCLOSURE (1) base. If additional supply length is required, installer must purchase parts separately. Important: If FLEXIBLE SUPPLY (3) is too long, loop to avoid kinking.

#### 10 INSTALL AND CONNECT MIXING VALVE (MIXING VALVE IS OPTIONAL)

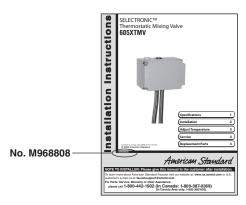

1. Remove COVER from MIXING VALVE.

2. Install FIBER SEAL WASHER (4) on MIXING VALVE NIPPLE (3). Hold MIXING VALVE (1) in place with one hand and with your other hand thread SWIVEL NUT (2) onto MIXING VALVE NIPPLE (3). Use an adjustable wrench to tighten SWIVEL NUT (2).

**3.** Place MIXING VALVE BOX onto MOUNTING PLATE. Align BOX with mounting holes. Attach with SCREWS provided.

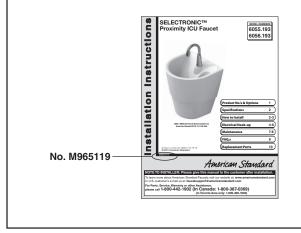

4. Replace COVER and tighten securely.

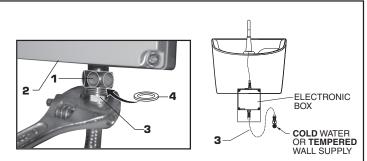

NOTE: For complete detailed installation and operating instructions see installations instructions supplied with mixing valve. No. M968808

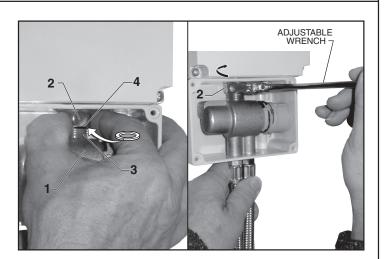

### **11** ELECTRICAL HOOK-UP AND INSTALLATION

For complete detailed installation and operating instructions see installations instructions supplied with ICU FAUCET. **No. M965119** 

## **12** CONNECT MIXING VALVE TO WATER SUPPLIES

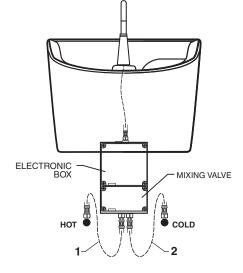

1. Turn off Hot and Cold water supplies before beginning.

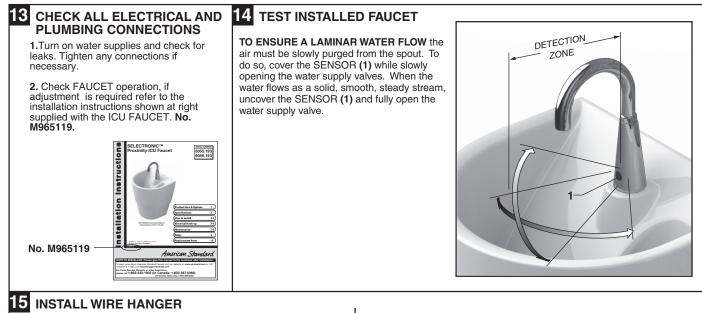

2. Connect FLEXIBLE SUPPLIES directly to wall supplies. Connections on MIXER supplies are 3/8" compression. Connect left supply to Hot and right supply to Cold wall supply. Use adjustable wrench to tighten connections. Do not over tighten.

**3.** Faucet supplies measure 20" from the bottom of the ENCLOSURE **(3)** base.

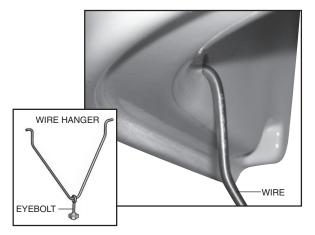

Note: If additional supply length is required, installer must purchase parts separately.

Important: If SUPPLY HOSES (1, 2) are too long, loop as to avoid kinking.

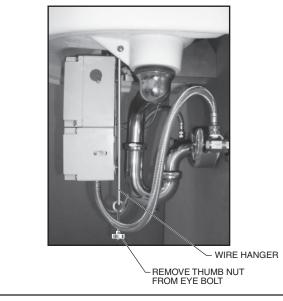

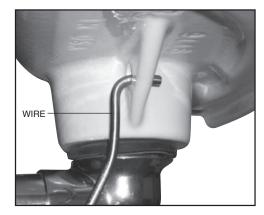

- 1. Install EYEBOLT onto WIRE HANGER if not installed.
- 2. Place WIRE end in left SIDE HOLE.

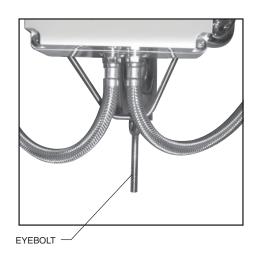

- 4. WIRE HANGER is positioned behind ELECTRONIC BOX and in front of DRAIN.
- 5. Remove THUMB NUT from EYEBOLT.

3. Place WIRE end in right SIDE HOLE near DRAIN.

- NOTE: If not enough tension, remove WIRE and spread ends approx. 1" additional and re-attach.
- 6. EYEBOLT for SINK APRON.

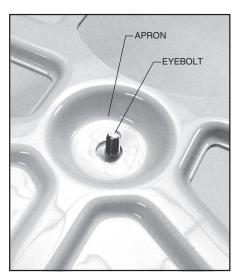

## **16** INSTALL SINK APRON

1. Hold APRON up against SINK and flush against finished wall.

 $\ensuremath{\textbf{2}}.$  Mark a line with a pencil on the wall about 6" long as shown on both sides of the APRON..

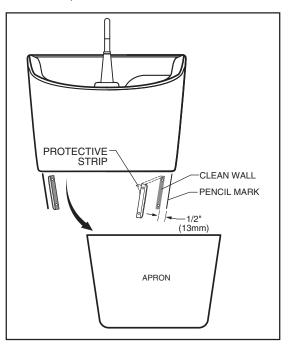

5. Position APRON under SINK and against finished wall alinging EYEBOLT with hole in APRON.

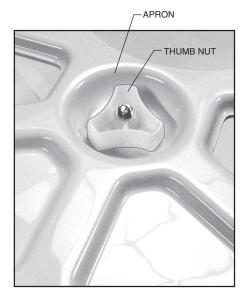

3. Remove the APRON. Clean the wall where the APRON BRACKETS supplied with SINK are to be applied. Peel off the protective strip from the back of the APRON BRACKETS. Apply the two APRON BRACKETS to the finished wall parallel to the pencil marks as shown in the illustration below.

OPTIONAL MOUNTING. (SCREWS AND ANCHORS NOT SUPPLIED) Use Brackets to mark pilot holes on wall. Drill holes for ANCHORS. Peel off the protective strip from the back of the APRON BRACKETS. Apply the two APRON BRACKETS to the finished wall parallel to the pencil marks as shown and aligned with the mounting holes. See illustration below. Install SCREWS and tighten.

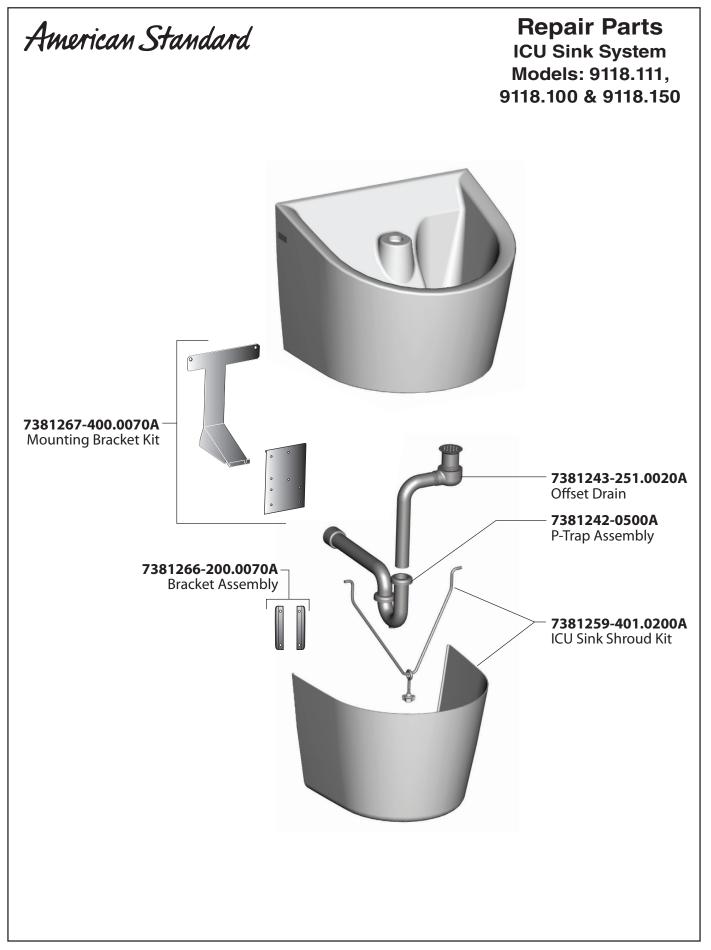

4. Clean off the pencil marks from wall.

6. Retain APRON with THUMB NUT. Finger tight only.

## IMPORTANT: SAVE ALL INSTALLATION INSTRUCTIONS FOR FUTURE USE

#### AS AMERICA, INC. ONE YEAR LIMITED WARRANTY

If inspection of this AS America, Inc. ("American Standard") plumbing product, within one year after its initial purchase, confirms that it is defective in materials or workmanship, American Standard will repair or, at its option, exchange the product for a similar model.

This limited warranty applies only to the original purchaser and installation of these products. In the event of a limited warranty claim, proof of purchase will be required—save sales receipt.

This limited warranty does not apply to local building code compliance. Since local building codes vary considerably, the purchaser of this product should check with a local building or plumbing contractor to insure local code compliance before installation.

This limited warranty is void if the product has been moved from its initial place of installation; if it has been subjected to faulty maintenance, abuse, misuse, accident or other damages; if it was not installed in accordance with American Standard's instructions; or if it has been modified in a manner inconsistent with the product as shipped by American Standard.

American Standard's option to repair or exchange the product under this limited warranty does not cover any labor or other costs of removal or installation. IN NO EVENT WILL AMERICAN STANDARD BE LIABLE FOR THE COST OF REPAIR OR REPLACEMENT OF ANY INSTALLATION MATERIALS, INCLUDING BUT NOT LIMITED TO, TILES, MARBLE, ETC. American Standard will not be responsible for any other incidental or consequential damages attributable to a product defect or to the repair or exchange of a defective product, all of which are expressly excluded from this limited warranty. This limited warranty does not cover any liability for consequential or incidental damages, all of which are hereby expressly disclaimed, or the extension beyond the duration of this limited warranty of any implied limited warranties, including those of merchantability or fitness for an intended purpose. (Some states or provinces do not allow the exclusion or limitation of implied limited warranties, so this exclusion may not apply to you.)

This limited warranty gives you specific legal rights. You may have other statutory rights that vary from state to state or from province to province, in which case this limited warranty does not affect such statutory rights.
